

IEEE-IAS CHICAGO CHAPTER FEBRUARY 2019 - TECHNICAL SEMINAR

REVIEW OF THE 2018 CHICAGO ELECTRICAL CODE

Saturday February 9, 2019, 7:30 am to 5:00 pm
Midwest Conference Center - 401 West Lake Street, Northlake, Illinois 60164

PRESENTER - **DAN CADDIGAN, P.E.**

ABOUT THE PRESENTER:

Dan Caddigan is Senior Engineer for Meade Electric. He has a BSEE, MSEE and MBA from IIT. Dan is a registered Professional Engineer in Illinois. For over twenty five years, Dan taught electrical code courses for Index Publishing and has taught electrical code classes with the Electric Association for the last twenty two years. Dan was an Electrical Inspector in the City of Chicago for six years and Supervisor of Electrical Inspectors for one year. Dan worked extensively on the Electrical Code Working Group which proposed the 2000 Chicago Electrical Code.

ABOUT THE TOPIC:

The 2018 edition of the Chicago Electrical Code is based on the 2017 edition of NFPA 70: National Electrical Code (NEC) and has been updated to incorporate Chicago amendments. In addition to new and revised articles addressing renewable energy, the Chicago Electrical Code enhances personnel protection with expanded GFCI protection, new requirements to protect electrical workers while maintaining or servicing electrical or electrically powered equipment, and alternative methods for performing load calculations. This program has been developed to review the new content within the 2018 Chicago Electrical Code and various differences from the previous version of the Chicago Electrical Code, in such a way so that the material learned can be applied immediately with increased proficiency, safety and efficiency.
