

The IEEE ESTMP 2018 Vendor Exhibition

Is being held from 1 pm until 7 pm on Tuesday March 13th at the Telus Convention Centre North, Hall "C".

Please make sure you visit the exhibitors who will be show casing new technologies and products aimed enhancing your electrical needs for maintenance and projects both now and in the future.

As in previous years we will be doing door prizes at 6:30 and your chances of winning are far better if you are present as in past years you must be there to claim your prize.

To have an opportunity to win, please make sure you get scanned as you enter the exhibition:

Door Prizes: Nest Wi-Fi Smart Learning Thermostat
Google Home
Bose Wave SoundTouch IV Wireless Multi-Room Music System
Polk Audio MagniFi MAX Sound Bar with Wireless Subwoofer

Join us for Free Sampling at Exhibition from 2:30 to 7 pm

For over 2 decades, Alberta's beer fans, adventurers and offbeat characters have come together at Wild Rose Brewery. Like all Albertans, we've learned and grown a lot in 20+ years (and have some wild stories to prove it). While times have changed, our passion for creating fresh, authentic beers and unforgettable experiences hasn't. We've grown enough to provide best-in-class quality control, but are small enough to stay true to our craft. And we'd love to show you around AF23, our WWII Air Force Hangar-turned-Taproom! Our obsession with the unbridled Alberta spirit has inspired an anthology of flavours that can be enjoyed alone or mixed together for a truly wild experience. And if you find a flavour combo you love, we'll mix it to go in a 32oz Crowler! From fresh, local, preservative-free ingredients to unbelievable experiences, Wild Rose Brewery is making Alberta even wilder, one beer at a time.

Brew Master, Brian Smith, on hand at the Wild Rose tasting booths at 5 PM for your brewing questions
