

Biography: Lingxi Li received his Ph.D. degree in Electrical and Computer Engineering from the University of Illinois at Urbana-Champaign, Illinois, USA, in 2008. He joined the Department of Electrical and Computer Engineering at Indiana University-Purdue University Indianapolis (IUPUI) in 2008 where he is currently an Associate Professor. Since 2008, he has also been with Transportation Active Safety Institute (TASI), a university-wide multidisciplinary signature research center at IUPUI where he is currently Associate Director of Intelligent Vehicles Laboratory.

Dr. Li's research interests include modeling, analysis, control, and optimization of complex systems, intelligent transportation systems, intelligent vehicles, discrete event systems, active safety systems, robotics and automation, and human factors. He has authored or co-authored over one book, two patents, and 70+ journal/conference papers. For the last 8 years he has been awarded a total of \$7.8M in grants and contracts sponsored by federal agencies, industrial partners, and the university. Dr. Li received Indiana University Trustees Teaching Award in 2012, Outstanding Editorial Service Award for IEEE Transactions on Intelligent Transportation Systems in 2012, and IUPUI Prestigious External Awards Recognition (PEAR) in 2013. He has served as Program Chair, Program Co-Chair, Publication Chair, Registration Co-Chair, and Program Committee member for a number of international conferences. Dr. Li is a Senior Member of the IEEE.
