

**Assoc. Prof. Dr. Fernando García**

He is a Visiting Professor at Universidad Carlos III de Madrid, in the department of Systems Engineering and Automation. He is a senior researcher and project leader in Intelligent Systems Lab, where his research interests are in Autonomous and Intelligent Vehicles, Advanced Driving Assistance Systems, Perception Technologies, Human Factors and Data Fusion. He has acted as visiting researcher in VisLab, Parma (Italy), working with perception technologies for Autonomous Vehicles, and State University of New York at Buffalo (USA), working in Data Fusion technologies in the Center for Multisource Information Fusion.

He has been involved in the organization of events with the IEEE Intelligent Transportation Systems Society (ITSS) during the latest years, performing as session and workshop organizer in the IV and ITSC conferences, in the topics of Human Factors as well as acting as workshop co-chair in the IV'16. He is the elected vice-president of the IEEE ITSS Spanish Chapter.

He has been recipient of the "Barreiros Foundation Award" in the domain of Automotive and Vehicle Applications in Spain in 2014, and award to "Best PhD Thesis" in the period of 2013-2015 given by ITSS Spanish Chapter, and the award for the Innovation in the Automotive Sector, diagnosis "Galeria de innovación Motortec 2015".

He is a Telecommunication Engineer, Master in Robotics and Automation, and PhD in Electric, Electronics and Automation. He has given lectures and seminars in different international universities besides Universidad Carlos III de Madrid, such as University of Buffalo, Università degli Studi di Parma, Universidad Pontificia Bolivariana de Medellin, Universidad de las Fuerzas Armadas – ESPE in Quito, Ecuador and Universidad Politécnica de Madrid.
