Monterey Marriott
350 Calle Principal
Monterey, CA 93940

Call for Exhibitors

Conference Organizing Committee

General Chair: David Whaley, L-3 EDD
Technical Program Chair: Monica Blank, CPI
David Abe, NRL
John Booske, University of Wisconsin-Madison
James Dayton, Teraphysics Corporation
Dan Goebel, JPL
Yehuda Goren, Teledyne
Lawrence Ives, Calabazas Creek Research
Carol Kory, Teraphysics Corporation
Richard Kowalczyk, L-3 EDD
Baruch Levush, NRL
William Menninger, L-3 ETI
Dev Palmer, DARPA
Jagadishwar Sirigiri, Bridge 12
Richard True, L-3 EDD
Jack Tucek, Northrop Grumman Corporation
Joan Yater, NRL

EDS Vacuum Electronics Technical Committee

Richard True (Chair), USA
David Abe, USA
Marinella Aloisio, The Netherlands
John Booske, USA
Ernst Bosch, Germany
Shih-Hung Chen, Taiwan
Yaogen Ding, China
Jinjun Feng, China
Anatoly Galdetskiy, Russia
Dan Goebel, USA
Thomas Grant, USA
Takao Kageyama, Japan
Carol Kory, USA
Kenneth Kreischer, USA
Lalit Kumar, India
Baruch Levush, USA
Konstantin Lukin, Ukraine
William Menninger, USA
Dev Palmer, USA
Claudio Paoloni, UK
Gun-Sik Park, Korea
Nikita Ryskin
Armand Staprans, USA
Philippe Thouvenin, France
Manfred Thumm, Germany
David Whaley, USA

FOR EXHIBIT SALES PLEASE CONTACT:

Dear Colleagues,

We are pleased to announce that the Seventeenth International Vacuum Electronics Conference (IVEC) will be held in **Monterey, California** on **April 19-21, 2016**. The conference website is <http://ivec2016.org>. The meeting will be held at the Monterey Marriott under the sponsorship of the IEEE Electron Devices Society (EDS). Visitors from around the world come to Monterey to experience its natural coastal beauty, visit the renowned Monterey Bay Aquarium, and experience its rich historic past memorialized in the novels of John Steinbeck.

Exhibitor tabletops are available for \$700. There is limited room, so apply early.

Plenary talks will provide insights into the history, the broad spectrum of fundamental physics, the scientific issues, and the technological applications driving the current directions in vacuum electronics research. Technical presentations will range from the fundamental physics of electron emission and modulated electron beams to the design and operation of devices at UHF to THz frequencies, theory and computational tool development, active and passive components, systems, and supporting technologies.

System developers will find that IVEC provides a unique snapshot of the current state-of-the-art in vacuum electron devices. These devices continue to provide unmatched power and performance for advanced electromagnetic systems, particularly in the challenging frequency regimes of millimeter-wave and THz electronics.

We invite you to submit papers on your work and experiences in vacuum electronics and electron sources. The meeting will efficiently disseminate useful information to device users, manufacturers, academics, and students. We encourage submission of papers from all groups.

The John R. Pierce Award for Excellence in Vacuum Electronics and a Student Paper Award will be presented at the conference. As in past conferences, the meeting and social events will provide unique opportunities to renew or establish new friendships with colleagues, interact with customers and end-users, and meet students and academic researchers.

We hope to see you all at IVEC 2016.

Sincerely,

The IVEC 2016 Organizing Committee

Sponsored by the IEEE Electron Devices Society
