

Welcome to the SMART future.

SOFTWARE RELIABILITY

WORKSHOP

Predicting the reliability of your software has become a key performance indicator for all companies. Catching and resolving potential issues means you can be proactive in solving issues and less reactive in dealing with the fallout. Software reliability has a direct impact on your bottom line.

The FedEx Institute of Technology is hosting a two-day workshop that will teach your employees how to accurately measure and predict software reliability across all platforms your company offers.

The pricing of this workshop is extremely competitive:

\$1000 for both days

**\$800 with FedEx discount

JUNE 14 - 15

FedEx Institute of Technology
365 Innovation Drive Memphis, TN 38152
