IEEE MTT-S Young Professionals in Microwaves will be organizing a workshop on 16th January 2017 from 4:40pm-6:30 pm MST as a part of Radio Wireless Week 2017. The workshop will provide you a platform to share your knowledge with others, directly speak and network with the executives of the wireless industry. It's a great opportunity to network and meet experts and young professionals all over phoenix.

Workshop will aim at: **Shaping the Career for the Next Generation Wireless Technologies**

Speakers:

1. **Paul Hart:** Senior Vice President of RF Power at NXP Semiconductors
2. **Bob Sankman:** Fellow, Intel
3. **Fred Schindler:** Design Center Director, Qorvo
4. **Carl A. Davenport:** General Manager of Product Development Engineering and Silicon Operations, IOT, Intel

Venue:

2nd level
Phoenix East West Room
Hyatt Regency
Phoenix, Arizona
