IEEE RRV Section, IAS Society Chapter Meeting

SERVING IEEE MEMBERS OF NORTH CENTRAL ILLINOIS AND SOUTH CENTRAL WISCONSIN

**WHEN** Thursday, June 8, 2017

**WHERE**

**AAR Aircraft Services**

6150 Cessna Way  
Rockford, IL 61109  
(Near the Rockford Airport)

**AGENDA**

5:20 PM Arrive and sign in  
5:30 PM Tour begins  
6:30 PM Adjourn

**Tour of the AAR Aircraft Maintenance Hangars at Chicago-Rockford International Airport**

AAR is a global aviation aftermarket solutions company that employs more than 4,500 people in over 20 countries. Based in Wood Dale, Illinois, AAR supports commercial aviation and government customers worldwide through two operating segments: Aviation Services and Expeditionary Services.

AAR's Aviation Services include component inventory management, parts supply; OEM aftermarket distribution; aircraft maintenance, repair and overhaul; and component repair. AAR's Expeditionary Services include airlift operations; mobility systems; and command and control centers in support of military and humanitarian missions.

The Rockford facility can provide check-level, heavy maintenance visits (HMV) and modification services for a variety of narrow and wide-body aircraft. Designed For Next-Generation Aircraft, the 238,000 square-foot facility consists of two 10-story hangars that are 300 feet by 300 feet, which can accommodate two Boeing 747s, or eight Boeing 737-800s/Airbus 320 variants. Designed for the next generation aircraft, four Boeing 787s can be handled, and the station can even hangar the new double-deck, wide-body, four-engine Airbus A380. It is the only hangar in the United States, not linked to an airline, capable of accommodating this 21st century aircraft, which is the world's largest passenger airliner.

AAR's network of award-winning mechanics will be bolstered by a pipeline of new aviation mechanics from Rock Valley Community College's Aviation Career Education Center across from the new Rockford repair facility. In addition to the Rockford region's aerospace industrial base, AAR Rockford will leverage its proximity to AAR headquarters and parts distribution center near O'Hare Airport.

**MEAL INFORMATION**

Light refreshments will be served

This meeting is FREE to all participants

**ALL PARTICIPANTS MUST REGISTER BEFORE 1PM JUNE 7**
