About vTools Events

IEEE vTools Events is used for managing IEEE Section, Subsection, Chapter and Affinity Group meetings and events.

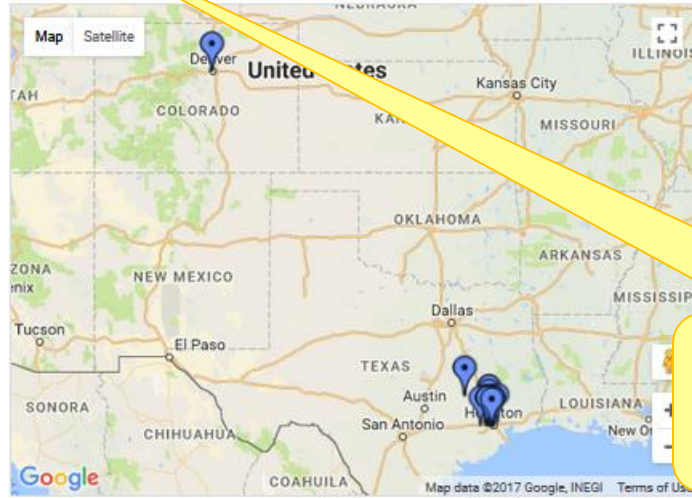

All events that are scheduled in vTools Events are showcased in IEEE Collabratec™ and can be promoted on websites and eNotices.

Custom registration questions ? Yes No

Payment

Set Up Payment ? None

The “**REGISTRATION & PAYMENT**” section includes **menu selections** and **maximum registrations** options.

Note: Registration dates must be selected in order for these options to be enabled.

You may want to specify the **maximum** number of **registrations** allowed. Use this when there is limited capacity at a venue. This option is only available when registration is set to **Standard**.

Menu Selections and **Custom Registration Questions** - during registration, you may want to request additional information (e.g. Company Affiliation, meal choices).

When selected, the **registration form** will include these selections as part of the registration process. The published events will display the menu items as well.

This option is only available when registration is set to **Standard**.

On the published event, the **REGISTRATION** area will include **Registration closed** message once registration has ended.

ODF: HOW A DIGITAL DOCUMENT FORMAT IS THREATENING A MULTIBILLION-DOLLAR MONOPOLY (AND WHAT YOU CAN DO TO HELP)

Under the leadership of Bill Gates, Microsoft has become one of the most profitable companies in the history of the world. There are many keystones to Microsoft's continuing lock-in as a convicted (yet untrammelled) monopolist in the personal-computer software market. One of the most important of these keystones, and one which is a matter of personal experience for many of us, is their control over access to the information we store in digital documents. Microsoft Word, by default, stores documents in a proprietary format which can only be read reliably by other copies of the same version of Word. Therefore, almost everyone who works in any kind of office needs to purchase an up-to-date copy of Microsoft Word in order to be able to open these documents.

UPCOMING MEETING SET-UP TEST

This is to test the meeting set-up to use for officers training
