

I am in control.

Laura, a university professor and prolific author, researches the modeling and control of mechanical, aeronautical, naval, and structural systems, and rescue and security robotics.

Advice to girls interested in technology:
"Believe in the power of ideas and their technical application."
Laura Celentano | Computer Science Engineer

I nourish young minds.

Prolific author of technical papers and renown in the field of control systems, Bozenna's contribution to bright minds and her solutions to complex technical problems have garnered many awards.

Advice to girls interested in technology:
"Do what you love to do, follow your passion."
Dr. Bozenna Pasik Duncan | Mathematician, Control Systems Engineer

I live IT.

Kathy is currently Deputy Program Manager for Missile Defense Agency Command, Control, Battle Management & Communications Spiral 8.2 Product Development

Advice to girls interested in technology:
"Stand out and highlight your intelligence."
Kathy Land | Information Technology

I work with friction stir processing.

"My work includes non-destructive evaluation of weld quality using artificial intelligence and signal processing techniques at the Center for Friction Stir Processing."

Advice to girls interested in technology:
"Embrace the difficulties."
Dr. Antonette Logar | Computer Science

I design faster fibers.

"I am a research engineer who designs new optical fibers, elevates their performance, and gives technical advice to support new standards."

Advice to girls interested in technology:
"Engineering jobs are interesting, rewarding, and helpful to humanity."
Yi Sun | Communications Engineer

I know nano.

"One of my first undergraduate research projects was to grow zinc oxide nanowires using a low-temperature solution method. My senior thesis would later be designed around this work."

Advice to girls interested in technology:
"Ask as many questions as possible."
Ashley Mason | Electrical Engineering Student

IEEE WIE FORUM USA EAST

ABOUT

The forum focuses on developing and improving leadership skills for individuals at all stages of their careers. Attendees will have the opportunity to hear inspirational and empowering talks presented by successful leaders. Emerging technologies will also be demonstrated, engaging attendees to facilitate discussion and potential advancement of STEM outreach class ideas.

SPEAKER TRACKS

Speeches centered around inspiration and empowerment will be presented by successful leaders from around the IEEE USA North-East region.

STEM WORKSHOPS

Hands-on technology workshops for area youth will be held. The workshops will allow local youth a chance to interact with engineering hardware while demonstrating to professionals methods for inspiring youth.
